B Bottomline™

PAYMENTS PROCESSING

Direct Access to Bacs and Faster Payments with a Scalable, SaaS Platform

Bottomline offers highly adaptable and scalable SaaS payment processing solutions. We are the ideal choice for organisations of any size and any industry, who are looking to streamline financial processes and enhance operational efficiency whether you are single or multi-banked, all with security and compliance as standard.

We are your trusted partner for all your payments needs, including payroll processing, supplier payments, expenses, or direct debit collections.

35 years' experience helping businesses with their payments

3.4 billion Bacs transactions processed annually

**Over 12,000 UK customers trust Bottomline** with their payments processing

Process **50%** of the **UK's Direct Debit and Direct Credit payments**

"Bottomline offers an online, intuitive, quick and user-friendly solution. For us the decision was simple! We now feel confident about our regular payments and collections."

– Nick Barber, Cash Manager, Callaway Golf

Our market leading API enabled SaaS platform relies on the most modern technologies so you can submit payment files in whichever format or size suits you best.

Why Bottomline is the Best Option for your Payments Processing

✓ **Flexible set up as standard** – configurable for your needs; assign users according to functionality or role, handle multiple data file formats, create dedicated and segregated workflows. Supports multiple methods of data import, including file uploads, API integrations and SFTP connectivity.

✓ **Fully automated solution** – ensures payments can be made in the fastest possible time whilst reducing fraud and error.

✓ **Bank agnostic platform** – so you can switch between banks or have multiple concurrent banking relationships without the cost and overhead of managing multiple payments applications.

✓ **Ability to submit payment files in bulk** – for quicker, more efficient payment processing and reduced bank charges.

✓ **Direct reporting from Bacs** – failed transactions can be identified and resolved quickly. Automatically collect Bacs reports, including payment status and rejection reports and integrate them directly into your existing systems.
